

Mukilan R

Thanjavur, Tamil Nadu, India | +91 6382333075 | mukilanravi12@gmail.com

SUMMARY

Radiation Therapy Technologist with 4.5 years of clinical experience in delivering precise and safe radiation therapy for oncology patients. Experienced in operating Elekta Synergy Platform, Elekta Synergy Platform Agility, Varian UNIQUE, and Varian TrueBeam SVC systems. Proficient in 3DCRT, IMRT, IGRT, VMAT, and DIBH treatment techniques, with hands-on experience using MOSAIQ and ARIA Oncology Information Systems. Skilled in patient positioning, treatment verification, respiratory motion management using Active Breathing Coordinator (ABC), radiation safety, quality assurance, and multidisciplinary oncology care.

EDUCATION

Bharathidasan University

Bachelor of Science (B.Sc.) – Physics

Thanjavur Medical College

Diploma in Radiotherapy Technology (DRTT)

2021

EXPERIENCE

Radiation Therapy Technologist

Meenakshi Hospital

Dec 2023 – Present

Thanjavur, Tamil Nadu

- Deliver advanced radiation therapy using the Elekta Synergy Platform.
- Perform patient setup, immobilization, treatment verification, and IGRT procedures.
- Deliver treatments including 3DCRT, IMRT, IGRT, VMAT and ELECTRON as prescribed by the Radiation Oncologist.
- Maintain patient treatment records using the MOSAIQ Oncology Information System.
- Ensure compliance with radiation safety and departmental quality assurance protocols.
- Collaborate with Radiation Oncologists and Medical Physicists to achieve accurate treatment delivery.

Radiation Therapy Technologist

Surya Global Hospital

Sep 2023 – Dec 2023

Kakinada, Andhra Pradesh

- Operated the Varian UNIQUE Linear Accelerator.
- Delivered 3DCRT, IMRT, VMAT, and IGRT treatments.
- Managed treatment scheduling and documentation using the ARIA Oncology Information System.
- Performed patient positioning, treatment verification, and quality assurance while ensuring patient safety.

Radiation Therapy Technologist

Karnataka Cancer Therapy and Research Institute (KCTRI)

Nov 2021 – Aug 2023

Hubballi, Karnataka

- Operated the Elekta Synergy Platform Agility for advanced radiation therapy.
- Performed 3DCRT, IMRT, VMAT, IGRT, and DIBH procedures.
- Worked with the Active Breathing Coordinator (ABC) system for respiratory motion management.
- Utilized the MOSAIQ Oncology Information System for treatment management and documentation.
- Assisted in patient immobilization, treatment verification, and quality assurance.
- Collaborated closely with Radiation Oncologists and Medical Physicists to ensure precise and safe treatment delivery.

TECHNICAL SKILLS

3D Conformal Radiation Therapy (3DCRT)

Intensity-Modulated Radiation Therapy (IMRT)

Volumetric Modulated Arc Therapy (VMAT)
Image-Guided Radiation Therapy (IGRT)
Deep Inspiration Breath Hold (DIBH)
Patient Positioning & Immobilization
Treatment Verification
Radiation Safety
Quality Assurance (QA)
Clinical Documentation
Oncology Patient Care
Elekta Synergy Platform
Elekta Synergy Platform Agility
Varian UNIQUE
Varian TrueBeam SVC
Active Breathing Coordinator (ABC)
MOSAIQ Oncology Information System
ARIA Oncology Information System
Respiratory Motion Management
Daily Machine Quality Checks
Patient Education & Counselling
Multidisciplinary Team Collaboration
Treatment Documentation
Infection Control
Attention to Detail

CLINICAL TRAINING

Radiation Therapy Internship, Thanjavur Medical College & Hospital - Completed 3 months of hands-on clinical training on the Varian TrueBeam SVC Linear Accelerator. - Gained practical exposure to 3DCRT, IMRT, IGRT, VMAT, patient setup, immobilization, treatment verification, and quality assurance procedures.
